

Recommended Spare Parts for your Marine Loading Arm

EMCO
WHEATON
by Gardner Denver

With the right care, maintenance and parts, your Marine Loading Arm can keep its maximum efficiency for decades.

Your Marine Loading Arms towering over your shore are an excellent feat of technology. They can withstand constant battering of the salty air and the harsh weather conditions of any seashore. But even the best MLA handled with the utmost care, will eventually degrade, corrode and lose efficiency. The stakes are high. Starting from said decrease of efficiency, larger downtime, smaller payload and less comfortable conditions for your workers, problems escalate into a decrease in safety, eventually leading to accidents, breakage, leakage, loss of product and effectiveness.

We know the parts you need

Repairs can be difficult and time consuming. But you are not alone. You are part of the Emco Wheaton Family.

And as a member of our family, you can count on our support. We will provide you with comprehensive spare parts recommendations for the next 2 or 5 years, including needed consumables, small and large components and critical items. We can also draw up a personalized summary of recommended parts for you based on your specific installation, needs and conditions in which your Marine Loading Arm operates in. The parts we deliver are all guaranteed to be fully compliant with OEM specifications.

The benefits are significant:

- You can ensure top efficiency of your operations and shortest repair or servicing time with a relatively small investment
- You will be prepared for any unforeseen breaks or leaks
- You will completely eliminate lead times
- Your operational capacity will remain at its highest for decades

Before

After

**Your goals
are our goals.
Let's reach
them together.**

Regular and careful maintenance of your Marine Loading Arm will ensure it keeps working with 100% efficiency and reliability for many more years to come. Our aftermarket teams stand ready to help you achieve your goals and targets, be it by service, new installation, recommendations or trainings.
